

SCOTT BUSHKIE INTRODUCTION

For more than 25 years, Scott has helped owners of privately held businesses successfully sell their business and begin living their best next chapter.

As a pioneer in the mergers and acquisitions industry, Scott identified a need for an investment banking level of service for companies who weren't large enough to catch the eye of large investment banks but were too large to be well-served by main street business brokers.

Today, Scott's firm, Cornerstone Business Services, has become one of the largest and prestigious boutique investment banks nationwide, having executed hundreds of transactions domestically and internationally, working with private equity firms, family offices, and strategic buyers both public and private.

Since publishing his book "Finish Strong" Scott has taken his message of how to holistically approach successful transitions for privately held businesses to audiences nationwide, presenting to thousands of business owners and their most trusted advisors.

Please help me welcome: Scott Bushkie!
